JOB MARKET PAPER

- 'The Value of Outside Options: Measurement, Impact and Inequality".
  Abstract: How do other employers shape a worker's pay? Using Portuguese matched employer–employee data, I identify labor markets from job mobility patterns and measure how the pay quality of alternative employers affects wages. Across markets, a 10% increase in outside options pay quality is associated with 3% higher wages. Within the same market and year, however, the same increase is associated with 1% lower current wages. This markdown is strongest among new hires and early-career workers, fades with tenure, and is followed by faster wage growth among workers who stay. Together, these patterns support a dynamic compensation story: valuable outside options shift compensation from current pay toward future progression. Despite shaping individual wages, this channel contributes little to aggregate wage inequality. Outside options nonetheless matter for inequality through a different channel, as market-level pay conditions account for about 15% of wage variance in Portugal.

WORKING PAPERS

- "Explaining Rural Start-Up Firms and Entrepreneurship in Portugal". With M. Marshalian, S. Sasso, and W. Vermeulen.
- "On the Asymmetrical Sensitivity of the Distribution of Real Wages to Business Cycle Fluctuations". With E. Costa and P. Portugal. Reject and Resubmit at *American Economic Journal: Macro*.
- "Medium-term Investment Responses to Activity Shocks: The Role of Corporate Debt". With P. Lopez-Garcia and R. Setzer.

WORK IN PROGRESS

- "An Estimator of Individual Peer Effects". With P. Guimarães and P. Portugal.

OTHER WORK

- "The Labor Market Decisions of Older Workers in Ageing Economies: Evidence from Spain and the UK". With P. Deb, G. Li, and C. Pizzinelli. IMF Working Paper 2025/030.

- "Exploring the Determinants of Early Retirement in Spain". With C. Pizzinelli. IMF Selected Issues Papers, Issue 78/2025.

WORK EXPERIENCE

Teaching Assistant Sep 2018 – Present
Nova School of Business and Economics

Courses taught: Microeconometrics (MSc), Empirical Methods for Finance (MSc), Public Policy (MSc), Labour Economics (MSc), Global Economics (BSc), Linear Algebra with Python (BSc), and Data Analysis and Probability (BSc).

Consultant Jul 2025 – Dec 2025
European Commission – Joint Research Centre

Fund Internship Program Jun 2024 – Sep 2024
International Monetary Fund
European Department, Spain Team

Research Analyst Jul 2021 – Jul 2022
